### **mY tender**<sup>®</sup>

Highly flexible, **pre-award contract transaction** service application, **mY tender** allows Clients:

- to post new tenders
- to receive bids
- to evaluate the received bids
- to send notifications to the bidders

This application brings quick and efficient way of dealing with a large number of tenders hence getting better Value for Money in terms of procurement costs and the actual received tender prices.

### **mY manager**<sup>™</sup>

Once the tender has been awarded, **post - award transaction** management through **mY manager** allows Clients:

- to control projects in progress
- to set - up the contract programme
- to control / approve payments
- to send notifications for payments once approved
- to utilise Earned Value Analysis throughout the process and monitor progress at every stage of the project.

**mY manager** continues to bring efficiencies to your business as the contracts move from Procurement to Project Management.

### **mY project**<sup>™</sup>

**mY Project** combines both **mY tender** and **mY manager** offering a complete solution to eSourcing.
